EDWARD AUTEN, JR. --- PRINCEVILLE, ILLINOIS

Wholesale List. Prices quoted are per 1 standard 3 to 5 eye division. Minimum order \$3.00. Terms: cash with order, F.O.B. Princeville, Ill. We make no warranty as to growth after sale. Offered subject to prior sale and to stock being in satisfactory condition when dug.

The Auten originations have proven their high and outstanding quality. No grower can keep up to date without a number of them. Stocks are still small and they should prove a safe purchase as prices are low and there is a large demand awaiting when they are well known.

Read descriptions of the Auten varieties in the retail list.

Wholesale list of standard kinds on separate sheet.

1. The first of these is the fact that the system is not a simple one, but a complex one, involving many different factors and many different people. The second is the fact that the system is not a static one, but a dynamic one, which is constantly changing and evolving. The third is the fact that the system is not a closed one, but an open one, which is constantly interacting with the outside world. The fourth is the fact that the system is not a linear one, but a non-linear one, which is characterized by feedback loops and other non-linear relationships. The fifth is the fact that the system is not a deterministic one, but a probabilistic one, which is characterized by uncertainty and risk. The sixth is the fact that the system is not a single one, but a multiple one, which is characterized by many different goals and objectives. The seventh is the fact that the system is not a simple one, but a complex one, which is characterized by many different factors and many different people. The eighth is the fact that the system is not a static one, but a dynamic one, which is constantly changing and evolving. The ninth is the fact that the system is not a closed one, but an open one, which is constantly interacting with the outside world. The tenth is the fact that the system is not a linear one, but a non-linear one, which is characterized by feedback loops and other non-linear relationships. The eleventh is the fact that the system is not a deterministic one, but a probabilistic one, which is characterized by uncertainty and risk. The twelfth is the fact that the system is not a single one, but a multiple one, which is characterized by many different goals and objectives.
